*I love the NSBAR, Have been a member for years. They have helped me in numerous situations...*

## *Is NSBAR relevant?*

- Very much so, it the central “go-to” place which can disseminate information to the brokers and agents on a more personal and local level.
- Absolutely, very important for the synergism and knowledge, especially for new agents, but also for established agents. Not even a questionable factor.
- I certainly believe that NSBAR is relevant and very instrumental in making my Real Estate experience fun and rewarding. NSBAR is much more user friendly than the association I came from!
- Very and keeps us informed and is always there for us when we need assistance or service.

## *Other comments:*

- As an independent company, I depend on the Board to keep me up to date on all real estate issues, and to provide CE classes, etc.
- I am extremely impressed by the professionalism and eagerness to assist each and everytime I am in need. The response of the board employees couldn't be better. I especially want to thank the staff for their support and attention in Real Estate Matters.
- NSBAR has been an important part of my real estate education and a continuing source of support, especially in the technical areas.....there are other services, Supra et. al., that are much more dispensable to me.
- NSBAR and its' staff are doing a great job, and I will continue to choose to work with NSBAR over other area associations every time without any remorse whatsoever!
