

Free and Inexpensive Software

with Mike Gazdzik

Having to purchase software for a computer can become very expensive. Programs made by small companies can sometimes be just as good and a lot cheaper. The reason for this is that small developers make constant updates to their product. The purpose of this class is to show you what software is available to you at no cost and some low cost alternatives, as well as some of the best places to find it.

FREE

*This session is **ONLY** for NSBAR Members. If you are not a member, you may consider joining as a secondary member with NSBAR in order to attend our free membership appreciation classes.*

Date: November 11th, 2010

Time: 10:00am to 11:30am

450 Skokie Blvd Bldg 1200, Northbrook, IL 60062
